

# TRANSPORT EQUIPMENT

Franklin Offshore Australia's Lashing & Transport equipment can help with all Transport requirements. All equipment is complies with AS4344:2001

## Ratchet Tie-Down Assemblies

- Ideal for securing any load on vehicles of all sizes.
- Sizes range from 250kg to 5 Tonne
- Fitted with a hook and keeper allowing attachment to a wide range of truck bodies, rails etc.

## Standard Load Binder

- Ideal for securing cargo with Chain Assemblies
- Sizes range from 6mm to 13mm
- Fitted with Chain Grab Hooks or Claw hooks

## Ratchet Load Binder

- Ideal for securing cargo with Chain Assemblies
- Sizes range from 8mm to 13mm
- Fitted with Chain Grab Hooks or Claw hooks
- Ratchet handle allows for incremental tensioning of transport chain.

## G70 Transport Chain

- Used together with load-binders, creates the ideal solution for Lashing down equipment onto Trucks
- Size range from 8mm to 13mm
- Standard Lengths are 9 Metres, but we can make them to your own requirements
- Grab Hooks, Claw hooks or Lug Links can be installed to chain ends to suite your requirements.

## G70 Clevis Grab Hooks

- Size range from 8mm to 13mm
- Most common hook used in Lashing components

## G70 Clevis Claw Hooks

- Size range from 8mm to 13mm
- Easy Hook up directly onto chain

## G70 Clevis Slip Hook

- Size range from 8mm to 13mm
- Creates an effective way to pull Lashing Chain tight prior to using loadbinders

## G70 Clevis Lug Link

- Size range from 8mm to 13mm
- Commonly used as a Tow or Anchor point for Lashing Chains or Drag Chains
